

# Bountiful Neighborhood Emergency Preparedness Committee

## Pet Plan:

Pets are often not taken into consideration. If you have a pet, you should have a plan for them in case of emergency too.

| Pet's Breed and Name | Pet License and/or Chip Numbers | Description | Notes |
|----------------------|---------------------------------|-------------|-------|
|                      |                                 |             |       |
|                      |                                 |             |       |
|                      |                                 |             |       |
|                      |                                 |             |       |

1. If we need to evacuate, we will evacuate our pets like this:

---

---

---

---

---

2. Our pet kit is located: \_\_\_\_\_

3. Local emergency animal treatment information:

---

---
